

Your Challenges:

- Does your staff struggle to find resources to support the implementation of IEPs?
- Does your staff need assistance developing and implementing Individual Education Plans (IEPs) for children with autism and other special needs?

Your Solution: AutismPro Resources

Bring AutismPro Resources into your district to give staff the resources they need to teach children with autism. AutismPro Resources will give your teachers, paraprofessionals and support teams the practical tools they need to save time and reduce stress.

Expert-Authored Resources

Staff can access expert-authored resources to complement your IEPs. Choose from over 300 objectives, 3500 activity plans and dozens of strategies for teaching activities and supporting the student. The AutismPro curriculum meets No Child Left Behind standards.

Individualized Education Plans (IEPs)

AutismPro Resources gives teachers and autism teams access to thousands of lesson plans, strategies and behavioral supports which can be used to quickly and easily to complement Individualized Education Plans (IEPs).

Prevent Problem Behaviors

Users can access hundreds of support strategies to demonstrate how to prevent each student's challenging behaviors.

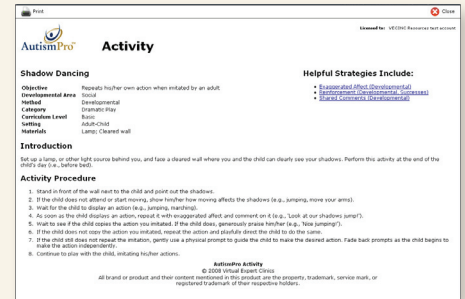

Combine with AutismPro Workshops

AutismPro Resources is the companion to AutismPro Workshops and provides the "practical" application of the "theory" learned in AutismPro Workshops. When you combine AutismPro Workshops and AutismPro Resources, you benefit from a complete training and resources package for delivering educational programming to children with autism and other special needs.

AutismPro Workshops offers 30-plus hours of professional development workshops divided into 6 Courses.

Each of these workshops are delivered using user-friendly language, student case studies, and video and graphic examples.

Activity Plans

3,500 plans to support children between the ages of 0 and 7 developmentally

Teaching Strategies

Specific methods for teaching a child with autism

Support Strategies

400 practical supports for challenging behaviors

"As a fellow educator who has delivered programming for students with autism, I know that AutismPro will give your staff the expertise they need to help their students and reduce everyone's anxiety."

Judith Melville-Benoich, Central Coordinator for Autism Services, Toronto District School Board (retired)

Using AutismPro Resources: Christine's Case

Christine has a child with autism in her class of 28. After reviewing the IEP that she and the autism team leader have prepared, Christine signs into AutismPro Resources to access resources to help her supplement and carry out the IEP.

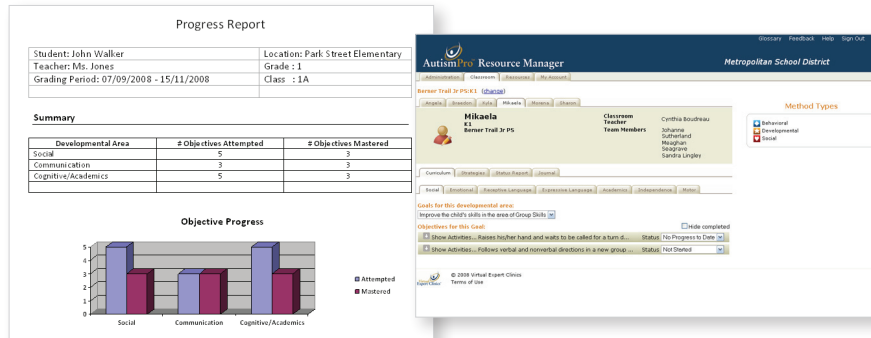

Christine selects from over 300 AutismPro learning objectives that align with her IEP and the district's curriculum. Once the objectives are selected, Christine quickly picks from over 3500 Activity Plans to use with her student.

She also reviews the Teaching Strategies, which help her understand how to teach students with autism based on her teaching method preference (behavioral, developmental, or social).

Her student, John, repeatedly bites other children. Christine quickly finds Support Strategies which she uses as practical guidance to help her deal with John's problem behavior.

Upgrade to AutismPro Resource Manager

AutismPro Resource Manager provides access to the thousands of teaching resources in AutismPro Resources and adds progress tracking, automatic report generation, team collaboration tools, and options for administrative oversight.
