

Your Challenges:

- Do you struggle to find autism training resources?
- Do you find traditional training models expensive?
- Do you wish all your staff could access autism training?
- Do you need to monitor staff achievement?

Your Solution: AutismPro Workshops

AutismPro Workshops's Internet-based workshops provide teachers and paraprofessionals with the training and knowledge they need to apply to real-world situations.

Expert Authored Content

AutismPro Workshops provides best practices from the latest research, including ABA, drawn from some of the world's leading experts.

Broad Accessibility

AutismPro Workshops's Internet-based workshops are readily available to all your teachers, teaching assistants and special educators anywhere, anytime.

Consistency

With all users receiving the same expert-authored training, AutismPro Workshops ensures consistency across your school and district.

Cost Effectiveness

For a significantly reduced cost compared to traditional training, you can provide quality training to your entire staff and track their professional development progress.

Syllabus

AutismPro Workshops offers 30-plus hours of workshops divided into 6 courses. Each of these workshops are delivered over the Internet using user-friendly language, student-case studies and video and graphic examples.

Course 1: Understanding Autism

Course 2: Improving Social Skills

Course 3: Improving Communication Skills

Course 4: Improving Behaviors

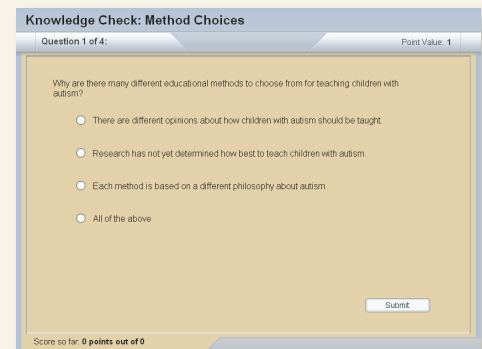

Course 5: Using Teaching Strategies

Course 6: Improving Learning and Independence

Learn

Over 30 hours of expert-authored online workshops

Track Staff Progress

Knowledge checks to reinforce learning and track workshop completion

Implement

Apply knowledge in the classroom

"The organization of multiple sources of complex information is one of the biggest challenges for educators. AutismPro Workshops is taking on the challenge."

Dr. Teresa Bolick, Psychologist

Using AutismPro Workshops: Sandra's Case

AutismPro Workshops is designed to be used by teachers, teaching assistants, special educators and tutors.

Sandra is a classroom teacher who has been assigned a child with autism in her Grade 1 class of 30 students. She has no formal autism training.

After class, Sandra signs into AutismPro Workshops. Because it is delivered over the Internet, Sandra is able to use AutismPro Workshops anywhere and at any time.

She is able to complete her training on-site, off-site or on professional development days.

Sandra progresses through the different workshops on autism, methods, implementing IEPs and using strategies to prevent problem behaviors.

Each workshop is delivered as a "slideshow" and allows for easy navigation through the materials.

Sandra completes a Knowledge Check to test her knowledge and comprehension of the material.

Once Sandra is finished, she will receive a certificate of completion and her results will be recorded in a central report for her administrator.

With this training, Sandra is better able to integrate children with autism in her classroom and improve student outcomes.

Combine with AutismPro Resource Manager

AutismPro Resource Manager gives educators guidance in developing and implementing IEPs. When you combine AutismPro Workshops and AutismPro Resource Manager, you benefit from a complete training and implementation solution for delivering educational programming to children with autism and other special needs.
